About Me

I'm an individual that is passionate about technology and loves working in IT. I love being challenged, a hard working yet flexible member of a team, who has always tried to make a mark in the world.

I see myself striving to achieve my goals and like to see my work through. I'm self motivated and driven to always out-perform myself.

I'm creative and very resourceful, with a driven to solution attitude, blessed with a patient mind and focused on my goals. I'm a quick learner that loves to explore and research new trends, ideas and technologies within business.

I love to fuse business ideas as well as needs and find IT solutions enabling businesses to work smarter and more efficiently.

Trust Experience.
Extensive international experience and exposure to different environments. Banking, retail, credit management, financials, supply chain and higher level education.

Management
Managing a small team, both on shore and offshore (Manila - Accenture) and (India - Berlitz).

Always evolving
Vast exposure to different technologies from COBOL mainframe, Oracle, Supply Chain, SQL, PHP to IOS application development and support.

Always Innovating
Idea generator, always asking and questioning "why" and "there must be an easier way to do this."

Free me
Supporter of open source and young emerging technologies.

Secure me
Study into IT security has always fascinated me.

Live by my Ds
Dream, Dedication, Determination, Direction and Destination.

Knowledge forever
"Seek knowledge from the cradle to the grave" - I'd love to further my education by completing my Masters by 2014.
